Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 12/9/02 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,099,504 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 29, 34, 35, 36, and 37 are rejected under 35 U.S.C. 102(a) as being anticipated by GALLI (WO 94/11041). Galli discloses a syringe comprising a barrel, needle, energization source 22, actuator, spring retractor 36 biasing the sleeve and nozzle sleeve moveably mounted on the barrel from a first position with needle concealed to second position with needle exposed, to a third activation position where said energization source is activated to move a piston to drive liquid from the reservoir through the needle (pg 11, lines 9-21).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 3763

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 31, 32, and 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over GALLI as applied to claim 29 above, and further in view of RADCLIFFE (U. S. Patent No. 3,867,938). Galli discloses the claimed invention except for the use of a gas generator to provide the force to expel medication from the syringe. Radcliffe teaches the use of a solid solution of citric acid and sodium bicarbonate in separate compartments that combine to generate gas for propelling medication out of the syringe. It would have been obvious to one of ordinary skill in the art at the time of the invention to use the teachings of Radcliffe in the syringe of Galli in order to provide an alternative means of force for driving medication out of a syringe. Re claim 39 the use of needle covers for safety reasons is notoriously well known in the art.

Allowable Subject Matter

Claims 33 and 38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3763

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
